2) Data collection when visiting our website

When you use our website for information purposes only, i.e. if you do not register or otherwise transmit information to us, we only collect the data that your browser transmits to our server (so-called „server log files“). When you call up our website, we collect the following data, which is technically necessary for us to display the website to you:

- our URL
- date and time at the time of access
- amount of data sent in bytes
- source/reference from which you reached the page

The processing is carried out in accordance with art. 6 para. 1 lit. f GDPR on the basis of our legitimate interest in improving the stability and functionality of our website. The data is not passed on or used in any other way. However, we reserve the right to check the server log files retrospectively if there are concrete indications of illegal use.

3) Cookies

In order to make visiting our website more attractive and to enable the use of certain functions, we use cookies, i.e. small text files that are stored on your terminal device. In some cases, these cookies are automatically deleted again after the browser is closed (so-called „session cookies“), in other cases, these cookies remain on your end device for longer and allow page settings to be saved (so-called „persistent cookies“). In the latter case, you can find the storage period in the overview of the cookie settings of your web browser.

If personal data is also processed by individual cookies used by us, the processing is carried out in accordance with art. 6 para. 1 lit. b GDPR either for the implementation of the contract, in accordance with art. 6 para. 1 lit. a GDPR in the case of consent given or in accordance with art. 6 para. 1 lit. f GDPR to protect our legitimate interests in the best possible functionality of the website as well as a customer-friendly and effective design of the page visit.

You can set your browser in such a way that you are informed about the setting of cookies and can decide individually about their acceptance or exclude the acceptance of cookies for certain cases or in general. Please note that if you do not accept cookies, the functionality of our website may be limited.

4) Contact us

1. Own rating reminder (not sent by a customer rating system)

We use your e-mail address for a one-time reminder to submit a rating of your order for the rating system we use, provided you have given us your express consent to do so during or after your order in accordance with art. 6 (1) lit. a GDPR.

You can revoke your consent at any time by sending a message to the data controller, for example by clicking on a link in the e-mail reminding you of the rating or in the customer menu.

2. When contacting us (e.g. via contact form or e-mail), personal data is processed exclusively for the purpose of processing and responding to your request and only to the extent necessary for this purpose. The legal basis for processing this data is our legitimate interest in responding to your request in accordance with art. 6 (1) lit. f GDPR. If your contact is aimed at a contract, the additional legal basis for the processing is art. 6 (1) lit. b GDPR. Your data will be deleted if it can be inferred from the circumstances that the facts in question have been conclusively clarified and provided that there are no legal storage obligations to the contrary.

5) Data processing when opening a customer account

Pursuant to art. 6 para. 1 lit. b GDPR, personal data will continue to be collected and processed to the extent necessary in each case if you provide us with this data when opening a customer account. The data required for opening an account can be found in the input mask of the corresponding form on our website. Deletion of your customer account is possible at any time and can be done by sending a message to the above address of the person responsible. After deletion of your customer account, your data will be deleted, provided that all contracts concluded via abovementioned data have been fully processed, no legal retention periods are opposed and there exists no legitimate interest on our part in the continued storage.

6) Comment function

In the context of the comment function on this website, in addition to your comment, information on the time of the creation of the comment and the commentator name you have chosen will be stored and published on this website. Furthermore, your IP address will be stored for security reasons in order to enable an attribution to the author in case of illegal comments. Your e-mail address will be stored so that you can be contacted if a third party objects to your published content as being illegal.

7) Use of customer data for direct advertising

Availability notification by e-mail

For items that are temporarily unavailable, you can sign up to receive email stock availability notifications. In this case, we will send you a one-time e-mail message about the availability of the item you have selected. Only your e-mail address is required for sending this notification. The provision of further data is voluntary and may be used to address you personally. We use the so-called double opt-in procedure for sending e-mails, which ensures that you will only receive a notification if you have expressly confirmed your consent to this by clicking on a verification link sent to the e-mail address provided.

By activating the confirmation link, you give us your consent for the use of your personal data in accordance with art. 6 para. 1 lit. a GDPR. We store your IP address entered by your internet service provider (ISP) as well as the date and time of registration in order to be able to trace any possible misuse of your e-mail address at a later date. The data we collect when you register for our availability notification service is used strictly for the intended purpose. You can unsubscribe from the availability notifications at any time by sending a message to the responsible person mentioned at the beginning. After unsubscribing, your e-mail address will be deleted immediately from our distribution list set up for this purpose, unless you have expressly consented to further use of your data or we reserve the right to use data in a manner that goes beyond this, which is permitted by law and about which we inform you in this declaration.

There is no consolidation or transfer of personal data to third parties by means of „Clerk“. The legal basis for this processing is art. 6 para. 1 letter f GDPR. The legitimate and overriding interests of us lie in the aforementioned purposes. You can find more details on „Clerk“ and its data processing via the following links <https://help.clerk.io/gdpr> and <https://clerk.io/privacy>

This website uses Google (Universal) Analytics, a web analytics service provided by Google Ireland Limited, Gordon House, 4 Barrow St, Dublin, D04 E5W5, Ireland („Google“). Google (Universal) Analytics uses „cookies“, which are text files placed on your computer, to help the website analyse how users use the site. The information generated by the cookie about your use of the website (including your IP address) will be transmitted to and stored by Google on servers in the United States.

This website uses Google (Universal) Analytics exclusively with the extension „_anonymizeIp()“, which ensures anonymisation of the IP address by shortening it and excludes direct personal reference. The extension means that your IP address is shortened beforehand by Google within member states of the European Union or in other contracting states to the Agreement on the European Economic Area. Only in exceptional cases will the full IP address be transmitted to a Google LLC server in the USA and shortened there. Google will use this information on our behalf for the purpose of evaluating your use of the website, compiling reports on website activity and providing other services relating to website activity and internet usage. In the process, the IP address transmitted by your browser as part of Google (Universal) Analytics will not be merged with other Google data.

Google Analytics also enables the creation of statistics with statements about the age, gender and interests of site visitors on the basis of an evaluation of interest-based advertising and with the inclusion of third-party information via a special function, the so-called „demographic characteristics“. This allows the definition and differentiation of user groups of the website for the purpose of targeting marketing measures. However, data records collected via the „demographic characteristics“ cannot be assigned to a specific person.

2. Applications to job advertisements by e-mail

We advertise current vacancies on our website in a separate section, for which interested parties can apply by e-mail to the contact address provided.

Inclusion in the application process requires that applicants provide us with all the personal data necessary for a sound and informed assessment and selection together with the application by e-mail.

The required information includes general personal information (name, address, telephone or electronic contact details) and performance-related evidence of the qualifications required for a position. If necessary, health-related information may also be required, which must be given special consideration under labour and social law in the interest of social protection in the person of the applicant.

The components that an application must contain in order to be considered and the form in which these components must be sent by e-mail can be found in the respective job advertisement.

After receipt of the application sent using the specified e-mail contact address, the applicant data will be stored by us and evaluated exclusively for the purpose of processing the application. For queries arising in the course of processing, we use either the e-mail address provided by the applicant with his/her application or a telephone number provided, at our discretion.

The legal basis for this processing, including contacting us for queries, is generally art. 6 para. 1 lit. b GDPR (for processing in Germany in conjunction with § 26 para. 1 BDSG), in the sense of which going through the application process is considered to be the initiation of an employment contract.

Insofar as special categories of personal data within the meaning of art. 9 (1) GDPR (e.g. health data such as information on severely disabled status) are requested from applicants as part of the application process, the processing is carried out in accordance with art. 9 (2) lit. b. GDPR. GDPR so that we can exercise the rights arising from labour law and social security and social protection law and fulfil our obligations in this regard.

Cumulatively or alternatively, the processing of the special categories of data may also be based on art. 9(1)(h) GDPR if it is carried out for the purposes of preventive health care or occupational medicine, for the assessment of the applicant's fitness for work, for medical diagnosis, health or social care or treatment or for the management of health or social care systems and services.

If the applicant is not selected in the course of the evaluation described above, or if an applicant withdraws his/her application prematurely, his/her data transmitted by e-mail and all electronic correspondence, including the original application e-mail, will be deleted at the latest after 6 months following notification. This period is measured on the basis of our legitimate interest in answering any follow-up questions about the application and, if necessary, to be able to comply with our obligations to provide evidence under the regulations on equal treatment of applicants.

In the event of a successful application, the data provided will be further processed on the basis of art. 6 para. 1 lit. b GDPR (for processing in Germany in conjunction with § 26 para. 1 BDSG) for the purposes of implementing the employment relationship.

The Shopauskunft widget is integrated into our website. The purpose of this widget is to display the number and results of the ratings we have received via Shopauskunft and to advertise with them.

In order to display the widget, it is technically necessary to transmit usage data from your internet browser to the Shopauskunft server and to store it in log data (so-called server log files) for 7 days. This stored data includes the name and URL of the retrieved file, the date and time of the retrieval, the IP address of the requesting computer, the website from which the access was made (referrer URL), the browser used and, if applicable, the operating system of your computer as well as the name of your access provider.

The processing is carried out on the basis of art. 6 para. 1 lit. f GDPR from our overriding legitimate interest in advertising our offers by displaying the customer reviews already received. This data is not stored together with other personal data.

15) Tools and miscellaneous

1. DATEV

We use the cloud-based accounting software of DATEV eG, Paumgartnerstr. 6-14, 90429 Nürnberg („DATEV“) to handle our accounting. DATEV processes incoming and outgoing invoices and, if applicable, also the bank transactions of our company in order to automatically record invoices, match them to the transactions and create the financial accounting from this in a semi-automated process.

If personal data is also processed in this process, the processing is carried out in accordance with art. 6 para. 1 lit. f GDPR on the basis of our legitimate interest in the efficient organisation and documentation of our business transactions.

You can find more information about DATEV, the automated processing of data and the data protection regulations at <https://www.datev.de/web/de/m/ueber-datev/datenschutz/>

2. Cookie consent tool

This website uses a so-called „cookie consent tool“ to obtain effective user consent for cookies and cookie-based applications requiring consent. The „cookie consent tool“ is displayed to users in the form of an interactive user interface when they access the page, on which consent for certain cookies and/or cookie-based applications can be given by ticking the appropriate box. Through the use of the tool, all cookies/services requiring consent are only loaded if the respective user gives the corresponding consent by ticking the corresponding box. This ensures that such cookies are only set on the respective end device of the user if consent has been granted.

The tool sets technically necessary cookies to save your cookie preferences. Personal user data is generally not processed.

If, in individual cases, personal data (such as the IP address) is processed for the purpose of storing, assigning or logging cookie settings, this is done in accordance with art. 6 (1) f GDPR on the basis of our legitimate interest in a legally compliant, user-specific and user-friendly consent management for cookies and thus in a legally compliant design of our website.

Further legal basis for the processing is art. 6 para. 1 lit. c GDPR. As the responsible party, we are subject to the legal obligation to make the use of technically unnecessary cookies dependent on the respective user consent.

Further information on the operator and the setting options of the cookie consent tool can be found directly in the corresponding user interface on our website.

3. Google Maps

On our website we use Google Maps (API) from Google Ireland Limited, Gordon House, 4 Barrow St, Dublin, D04 E5W5, Ireland („Google“). Google Maps is a web service for displaying interactive (land) maps in order to visually present geographical information. By using this service, you will be shown our location and it will be easier for you to find us.

Information about your use of our website (such as your IP address) is transmitted to Google servers and stored there when you call up those sub-pages in which the Google Maps map is integrated; this information may also be transmitted to Google LLC servers in the USA. This occurs regardless of whether Google provides a user account via which you are logged in or whether a user account exists. If you are logged in to Google, your data will be directly assigned to your account. If you do not wish to have your data associated with your Google profile, you must log out before activating the button. Google stores your data (even for users who are not logged in) as usage profiles and evaluates them. The collection, storage and analysis are carried out in accordance with art. 6 para. 1 lit. f GDPR on the basis of Google's legitimate interest in displaying personalised advertising, market research and/or the needs-based design of Google websites.
